EDUCATION

Bundelkhand Institute of Engineering and Technology | Jhansi
B.tech

Aug 2023 - Jun 2027
CGPA : 8.5

PROJECTS

KrishiSakhi – AI-Powered Farming Assistant | 🐙 Github 🌐 Website
Express.js, MongoDB, Gemini AI, ElevenLabs, Twilio

Jul 2025 - Aug 2025

- Built an AI-powered farming assistant delivering personalized crop recommendations, farming guidance, and agricultural insights using Gemini AI.
- Developed RESTful APIs with Express.js and MongoDB for farmer profiling, activity tracking, and recommendation management.
- Implemented crop disease detection and intelligent pesticide recommendation workflows using image-based analysis and AI-powered decision support.
- Integrated multilingual voice and text interactions using ElevenLabs and Twilio, enabling farmers to access assistance through natural language communication.

StayScape – Property Rental Marketplace | 🐙 Github 🌐 Website
Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary

Nov 2024 - Jan 2025

- Engineered a full-stack property rental platform using Node.js, Express.js, EJS, and MongoDB within an MVC architecture for property listing and user management.
- Implemented secure user authentication and role-based access control using Passport.js, session handling, and bcrypt password hashing.
- Developed RESTful CRUD APIs and integrated Cloudinary with Multer for seamless image uploads, cloud storage, and media optimization.
- Designed scalable MongoDB schemas with referenced data models and centralized async error handling for robust backend validation.

NexLearn – AI-Powered Education Platform | 🐙 Github 🌐 Website
React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini AI, JWT

Apr 2026 - May 2026

- Developed an AI-powered learning platform generating personalized learning roadmaps, resource recommendations, and skill development guidance.
- Integrated AI APIs with RESTful backend services to deliver customized learning experiences based on user interests and goals.
- Designed responsive user interfaces using React and Tailwind CSS with optimized state management and seamless navigation.
- Built scalable backend architecture with MongoDB for user management, progress tracking, and resource organization.

SKILLS

Programming Languages :	C, Java, Python, JavaScript, TypeScript, SQL
Frontend :	React.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3, EJS
Backend :	Node.js, Express.js, REST APIs, Mongoose, JWT, Passport.js, OAuth 2.0
Real-Time & Cloud :	WebSockets, Cloudinary
Databases :	MySQL, MongoDB, Firebase, Redis
Tools & Platforms :	Git, GitHub, Docker, Render, VS Code, Postman, Nodemailer
Coursework :	Data Structure and Algorithms, Operating Systems, OOP, DBMS, Computer Networks

AWARDS & ACHIEVEMENTS

Winner, Smart India Hackathon (SIH) 2025

- Secured 1st place in a national-level innovation competition by developing KrishiSakhi, an AI-powered farming assistant featuring crop recommendations, disease detection, and multilingual farmer support.

Competitive Programming (LeetCode)

- Completed 250+ algorithmic challenges, demonstrating advanced proficiency in complex data structure manipulation, dynamic programming, and efficient graph traversal.
